Implementing NIS2 as a national and sectoral CSIRT

Bouke van Laethem

3RD Conference - 2024-04-24

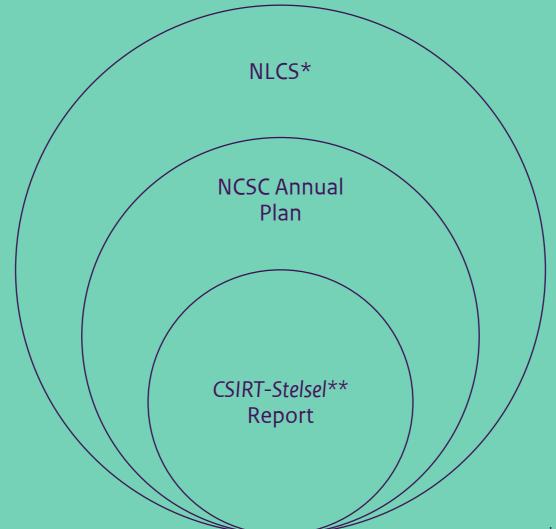

Nationaal Cyber Security Centrun Ministerie van Justitie en Veiligheid

Bouke van Laethem

Senior Projectlead National and Sectoral CSIRT - NCSC-NL

"Turning incidents into actionable intelligence"

National | Sectoral

The Dutch way of doing CSIRT(s)

Sectoral CSIRT*

National CSIRT

Monitoring

Analysis

Notifications

Incident Management

Coordination

11.4

11.3.a

CSIRTs: SHALL monitor and analyse, and assist entities monitoring

11.3.e

CSIRTs: SHALL provide proactive vulnerability scanning on request of

11.3.add.1

CSIRTs: MAY carry out proactive scanning of publicly accessible entities' systems

CSIRTs: SHALL monitor and analyse, and assist entities monitoring

11.3.a

CSIRTs: SHALL collect data and provide dynamic analysis and situational intel

11.3.d

11.3.b

CSIRTs: SHALL provide warnings and alerts to entities, authorities, etc. 11.3.C

CSIRTs: SHALL respond to incidents and provide assistance to entities

11.3.d

CSIRTs: SHALL collect data and provide dynamic analysis and situational intel

11.3.g

CSIRTs: SHALL participate in CSIRTs network and provide assistance

11.3.f

Article 12.1 (SPOC)

CSIRT: SHALL

coordinate

vulnerability

disclosure

(CVD) under

11.3.h

CSIRTs: SHALL contribute to deployment informationsharing tools

secure

11.5.a

CSIRTs: SHALL cooperate with private sector

promote common incidenthandling practices, schemes and taxonomies

CSIRTs: SHALL

11.5.b

taxonomies

CSIRTs: SHALL CSIRTs: SHALL promote common crisis management practices, schemes and

common CVD practices, schemes and taxonomies

11.5.C

*) There will be multiple NIS2 designated Dutch sectoral CSIRTs

n/sCSIRT Mission

- Intelligence Driven Incident Management
- Impose Cost and Increase Resilience
- Stimulate and Support Self-Reliance

Mission areas

Actively and effectively contribute to cyber resilience of (inter)national entities through "Digital First, Human led, Entity Centric, Tech Enabled, CTI Driven" CSIRT services:

- Analysis (CTI, situational awareness, etc.)
- Monitoring (including detection)
- Threat, incident and vulnerability notification
- Incident response and coordination, operational coordination
- Collaboration and cooperation

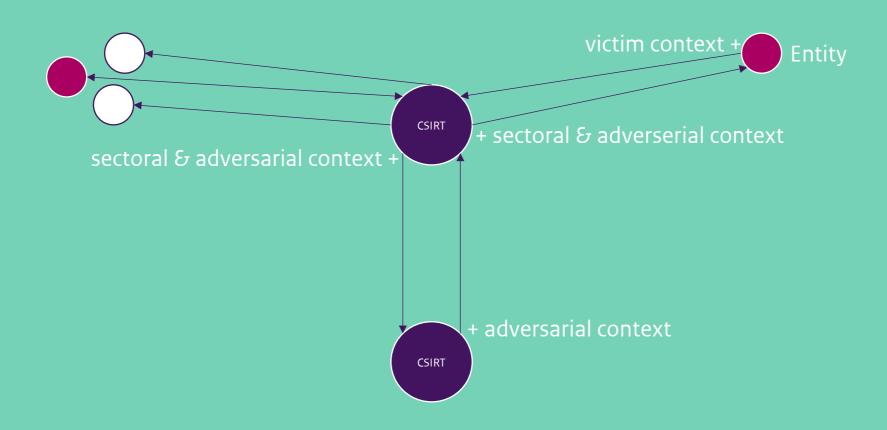

Principles

- Proactive role in collaboration
- Co-creation and sharing of Data, Information, Knowledge and Expertise
- Leading by example (expertise & best practices)
- Manage, operate and share resources
- Measurable impact & results

Enrich, Support and Share

Sectoral CSIRTs in action
